

## **Product Information**

## 92 08 79 ESD

## **Positioning Tweezers ESD**

- With gripping surfaces in dimensionally adapted designs, for example for firmly and securely positioning or pulling sensitive rounded or cuboid components
- For through-hole technology (THT) and pin-in-hole technology (PIH)
- Antimagnetic to avoid electromagnetic damage
- This allows to compansate in a controlled manner the differences in potential between the operator and electronic components
- With a tested black epoxy resin coating with a surface resistance between 10<sup>3</sup> and 10<sup>9</sup> ohms

General	
Article No.	92 08 79 ESD
EAN	4003773054641
Material	stainless steel
Gripping surfaces	smooth gripping surfaces
handles	serrated
Weight	15 g
Dimensions	122 x 10 x 14.5 mm
Standard	DIN EN 61340 -5-1
REACH compliant	does not contain SVHC
RoHS compliant	not applicable

Technical changes and errors excepted

## **KNIPEX** Quality – Made in Germany
